

Jenny Seabert

BUILDER DESIGN SPECIALIST

A.A Grand Rapids Community College

Designing since 1998 | Joined KSI 2014

Jenny got her start in the industry in 1998 and has been designing kitchens, baths, and living spaces ever since. In 2014 she joined the KSI team and has proven to be a valuable asset.

Jenny enjoys working with both new construction and remodel projects and loves the challenge that comes with maximizing the spaces she's working with. "Utilizing our client's ideas and inspiration to design a functional space is such a rewarding process," says Jenny. "I enjoy seeing my client's eyes light up when they see their ideas come to life through my designs!"

Jenny has many hobbies outside of the design center including: downhill skiing and snowmobiling in the winter, camping and boating in the summer, attending baseball games with her three boys throughout the year, watching movies, taking her dog for long walks, and horse back riding (although she wishes she could do that more often). If that isn't enough to keep her busy, Jenny also volunteers at her kids' schools.
