

Joe Peace

SENIOR DESIGNER | NORTHVILLE, MI

Designing since 1998 | Joined KSI 1998

Joe started in the kitchen and bath industry in September of 1998 as a cabinet installer. He had an interest in design and helping the trades with their kitchen projects. Self-taught, Joe accepted a sales and design role at the KSI Ann Arbor design center. He quickly absorbed product and design knowledge by learning from his peers. Joe strives to incorporate his client's "wish list" into their kitchen or bath so their vision becomes a reality.

Joe has relationships with local builders and remodeling companies throughout Livonia, Redford, Novi, and Canton, MI. His attention to space planning, function and timeline allows his projects to run smoothly from start to finish.

When Joe is not working, his interests include music, reading, and sports. He loves to watch sporting events on television, as well as play baseball, softball, basketball and hockey.
