

Kelly Bodnar

DESIGNER | ANN ARBOR, MI

B.S. Interior Design, Adrian College

Designing since 2016 | Joined KSI 2020

Kelly believes no two projects are ever the same! While floor plans and layouts might be similar or reminiscent of a previous project, design is always evolving, and every design element has the opportunity for a twist.

After receiving her degree in Interior Design from Adrian College, Kelly started working for a high-end kitchen and bath studio in the suburbs of Chicago. She plunged into a variety of projects of all scales and became passionate about all the details essential in a strong, well-thought, and planned design. When presented with the opportunity to come back home to Michigan, she couldn't say no! She was eager to apply her new experiences while upgrading the homes in neighborhoods from her roots.

Through a collaborative, holistic approach, she guides clients throughout the process asking questions and piecing together a space that responds to how they live and interact. Kelly's work marries beauty and function to bring a client's space to life in an intimately personal and purposeful way.

When she's not designing, you'll find her in her own kitchen, pouring over a new recipe or enjoying take-out from a new restaurant. She also loves catching a game, playing golf with her boyfriend, and walking her dog, Maizey.
