Professional Design Centers available to assist in client consultation
Accurate Measurement | Dedicated Builder Support | Responsive Service

Kim Young

BUILDER SALES AND DESIGN SPECIALIST

Designing since 1988 | Joined KSI 2021

Kim Young has been in the K&B industry for 33 years. Kim started her career at a lumberyard where she learned industry basics and knew quickly this was the industry for her. From there she joined a plumbing company in East Lansing where she helped facilitate the addition of a kitchen showroom. In 1991, Kim made her move to Grand Rapids to start a successful career with a local cabinet distributor.

Kim spent the last 30 years building her customer family, and she is grateful to be able to continue servicing them with KSI. Over the years she was blessed to be mentored by some of the best in this business and considers it her duty and pleasure to help those starting their design careers as she once did.

According to Kim, she is a “function first kind of girl” when it comes to kitchen design. Her dream kitchen is small and efficient with warm woods and natural stone. She considers it an honor to be an integral part of helping her clients realize their dream spaces.

Kim has an extensive list of hobbies and interests, and she’ll try almost anything once! A good portion of her free time is spent chauffeuring her son to his many activities, and volunteering as long as he will allow. Despite the busyness, she still makes time for gardening, golf, the beach, cross country skiing, ice skating and family adventures.
