

Maureen Theodore

DESIGNER

Designing since 2008 | Joined KSI 2023

Maureen started at a remodeling company fresh out of design school, eventually moving on to take lead design roles at design firms where she could focus on designing custom kitchens and spaces. Maureen's love for interior design began at a young age... "It all started with an HGTV computer program my mom bought me when I was 9 years old... I have been hooked ever since!"

As a Designer at KSI's Brighton Design Center, Maureen works with clients to craft kitchen and bath spaces that are beautiful and functional.

In her spare time, Maureen loves being outdoors, tending her garden, expanding her landscaping with flowers, and spending time with her family. "I am an artist at heart, and I'm drawn to anything with being creative or crafting with my daughter," says Maureen. "Nowadays most of my hobbies are whatever my daughter is active in!"
