Accurate Measurement | Dedicated Builder Support | Responsive Service

## Troy Kooistra

**BUILDER SALES SPECIALIST**

*A.A Business Studies, Grand Rapids Community College*  
Designing since 2017 | Joined KSI 2013

Troy was first exposed to the cabinet industry as a youth helping his dad with his small refinishing business. During that time, he was exposed to all the odds and ends of redoing kitchens.

Troy knows his way around kitchen and bath – specifically cabinets and countertops. Troy entered the industry as a delivery driver and has since moved into a sales role servicing builders and their clients with great communication and service. Troy’s builder customers love his heavy emphasis on communication and follow up. His attention to small details out in the field help him effectively talk through and discuss with homeowners and builders their dream kitchens, baths and living spaces. With the help of a fantastic group of designers, Troy is able to make his clients’ dream a reality.

When he’s not at work Troy enjoys spending time up north with his wife and family the at the barn house they built. There they enjoy hunting, fishing, camping and everything outdoor related.
